Skiholiday in Annaberg-Lungötz

in the middle of the DACHSTEIN WEST ski region
- you have chosen well!

Everything that real ski lovers could wish for on a winter holiday in Austria - or better said a **ski holiday in Austria** can expect - here in the ski area Dachstein West you will find it. Already from the majestic **Dachstein** mountain range, which is the ideal location for this and his name. The ski area is located along of the Dachstein and offers again and again fascinating views of the this and also other impressive high mountain massifs. Hardly anywhere else, one is therefore so close to the high mountains and enjoys but still the advantages of a ski resort in a low mountain range location. The best way to learn this „high feeling“; is panorama skiing along the SkiGenussRunde Panoronda. At the Dachstein snow is always there, which one can see during an ascent, for example with the Dachstein cable car on the Krippenstein. Because this ski area also belongs - as do five others - to the map network Dachstein West with a total of **160 km of slopes**.

Multi-day tickets for more than one and a half days are available on all Lift facilities valid throughout the entire ticket network.

Floodlight-Skiing every Wednesday (peak season)

during 07.00 and 09.30 pm at the Lammertallift in Lungötz
for free for all guests with a valid guest card from Annaberg-Lungötz
(Infos Family Kraft: +43 (0) 6463 7146)

Skischool freeride-alpin
